International Scholarships

- There are four international scholarships available.
- Scholarships are assessed at the time of application
- Curtin has \$4.8M of scholarships dedicated to international students available in 2019.
- For full details and terms and conditions of these scholarships visit: curtin.edu/int-scholarships
 - ❖ SEMESTER 1 SCHOLARSHIPS Open: 16 July 2019
Close: 15 November 2019
 - ❖ SEMESTER 2 SCHOLARSHIPS Open: 16 July 2020
Close: 15 May 2020
 - ❖ The mainstream course offer needs to be accepted by the closing date as indicated above for the scholarship to be applied.

On-campus accommodation

- ❖ If you are moving to Perth, you may choose to live on campus in university housing. Early applications are highly recommended.
- ❖ Live on campus-1,175 places for students
- ❖ Rooms are fully furnished and there are plenty of recreation facilities and support services, plus you're in easy walking distance of your classes, the library, the shopping centre, gym and public transport.
- ❖ UniLodge will help you find your accommodation based on your preferences and requirements
- ❖ A place to meet new people and make friends, with a range of weekly activities and social events.

Free English Program

- Removing language barrier for our future students and ensuring they succeed.
- Free 10 Weeks (Last 10 weeks of an English program ie. ELB or Gateway)
- Students will pay for their English upfront, with the 10 weeks cost deducted from their mainstream fees on enrolment at Curtin University.
- Eligible Students:
 - Commencing mainstream in 2019
 - Must have an English condition on their offer

Faculty of Health Sciences

Faculty Overview

One of the **largest and most comprehensive health schools** in Australia.

The **largest centre of Interprofessional Education** in Western Australia.

Educate more health professionals than any other Western Australian tertiary institution.

Health Sciences Office of Research and Development promotes and supports staff and students in research across the Faculty.

Our professional courses are **accredited nationally** and **recognised internationally**.

Our programs have **strong industry links**, producing graduates that are **job ready**, highly regarded and sought by healthcare institutions.

Go Global – **nationally awarded** international and interprofessional service learning program.

Interprofessional Education

Interprofessional education recognises that no single health profession has the capability to deliver optimal care for a wide range of health and social issues

It “occurs when two or more professions learn with, from, and about each other to improve collaboration and quality of care”
CAIPE (2002)

Occurs in the first year of undergraduate degrees, students from all health disciplines study:

- Foundations for Professional Health Practice
- Health & Health Behaviour
- Human Structure and Function
- Evidence Informed Health Practice
- Indigenous Culture and Health

Provides students with the skills to:

- Work in an interprofessional team
- Ensure client centred care
- Promote collaborative, holistic practice

English at Health Sciences

All Health Science students are expected to develop their English during their studies

- Cornerstone of a health degree is communication.

To help our students, the faculty offers FREE English development workshops.

These can be studied by students whilst they are studying their course to assist them in their studies.

Programs offered:

- Clinical Communication Skills
- English for Clinical Practice
- Academic Writing
- OET Preparation Course
- English for Professional Writing
- Academic Writing for Higher Degree by Research

Go Global

Faculty of Health Sciences Go Global program provides health students with the opportunity to undertake an international clinical fieldwork placement at partner sites in Asia.

Award winning international student mobility program

Students exchange knowledge and work alongside local health professionals delivering services relevant to their degree.

Currently students can apply to undertake a placement in Cambodia, China, India & Vietnam.

Industry: Go Global graduates have gone on to develop careers in the international development arena with AusAID and Australian Youth Ambassadors for Development

Intercultural & International: Assessments throughout the program provide students with opportunities to demonstrate cultural competence and consider issues from a global perspective

Interdisciplinary: Go Global provides rich educational experiences outside the singular confines of a single discipline, including working in interprofessional teams to solve complex problems.

Faculty of Health Sciences

School of Psychology

School of Psychology

- ❖ The School of Psychology is committed to excellence and innovation in teaching and research, offering undergraduate, postgraduate and research programs in the areas of psychology.
- ❖ Curtin was listed in the top 151-200 universities for psychology in the QS World University Rankings by Subject in 2018.
- ❖ The school is committed to providing a rewarding and relevant learning and teaching experience, running both an adult psychology clinic and a child psychology clinic on campus where students can practice the skills they have learned. Students can also gain experience in the student-led clinics in nearby Cockburn that offer provisional counselling psychology services.
- ❖ The School of Psychology has a thriving research culture. Our academic staff and large cohort of PhD students are involved in world-class work in health psychology and behavioural medicine, brain, behaviour and mental health, community psychology, cancer prevention, drug use, neuroscience and developmental disabilities including autism and cerebral palsy.
- ❖ Students will now have the opportunity to compliment survey and questionnaire based research with behaviour measures and evaluations that can be reported in the multiple computer labs. Other facilities include: soundproofed booths, consultation rooms, observation room, EEG equipment and eye-tracking equipment

Curtin University

Double Degrees with the BSci (Psychology)

Bachelor of Laws + Bsci (Psychology) (5.5 Years)

- The Bachelor of Laws, Bachelor of Science (Psychology) double degree is ideal for students who want to combine a career in law with a deeper understanding of human behaviour. In addition, this degree is ideal for students who wish to pursue a career in psychology in areas such as the criminal and justice systems.

BSci (Psychology) + Bcomm (Human Resource Management) (4 Years)

- This course is designed to provide a basis in and appreciation of the scientific discipline of psychology as well as the human resource management professions.
- This combination provides you with a highly marketable knowledge base that allows you to relate to a broad range of managers, professionals and consultants, and also provides a foundation for graduate studies in either professional application or research.

BSci (Psychology) + Bcomm (Human Resource Management + Industrial Relations) (4 Years)

- You will graduate being able to use your knowledge in psychology to help resolve issues in the workplace, recruit and engage employees, and improve individual and team performance. You will gain skills in planning, organising, analysing, decision-making, oral and written communication and be able to deal with people confidentially, tactfully, and with discretion, as well as being able to work within rule (legislative and legal).

BSci (Psychology) + Bcomm (Marketing) (5 Years)

- In this double degree you will learn key concepts and theories in psychology and marketing and apply them to real-world situations. You will develop an advanced knowledge of the human brain and behaviour and acquire analytical methods to examine how culture, personality and lifestyle affect the behaviour of consumers.

These degrees require a further fourth year in psychology in order to be able to apply for associate membership of the Australian Psychological Society.

Master of Psychology

Why Master of Psychology at Curtin?

- Curtin was listed in the top 151-200 universities for psychology in the QS World University Rankings by Subject in 2018.
- This course will provide you with advanced training in clinical psychology up to the sixth year level through a combination of coursework, practical placements and research.
- You will be trained in evidence-based interventions to assess and manage a range of psychological issues and diagnosed clinical disorders such as anxiety and depression. You will also be trained in individual and group interventions.

Entry:

- Intake: February (*Acceptance Deadline – 5 Dec*)
- Academic: 4 year bachelor of psychology (assessed by APS) (*Competitive entry*)
- English: IELTS 7.0 (7.0)
